

Quality Policy

With the motto of "Giving continuing opportunities to Intellectually Disabled Children and Adults to develop their physical fitness, demonstrate courage, experience joy, and participate in a sharing of gifts, skills and friendship with their families and other Special Olympics athletes and the community", Special Olympics Bharat is always the pioneer of reform and renewal.

We strive to continually improve in all of our sports activities and events with a strong commitment of consistent quality of training and coaching.

Our aim is to satisfy and help bring these children and adults into the social mainstream under conditions whereby they are accepted, respected and given a chance to become more productive citizens through:

- Continual improvement of QMS processes by applying strategic directions against identified process risks with respect to the identified external and internal issues related to context of the organization.
- Selection and training of volunteers as coaches and managers to manage programme and events effectively.
- Organizing sport events in time with best outcome.
- Continuously facilitating the expansion of the Special Olympics movement throughout India.
- Motivating human resource including volunteers to support this cause in a big way.
- Effectively managing to build awareness and attract resources to support Special Olympics.
- Continuously achieving objectives which are critical to processes and service quality.
- Disseminating the Quality Policy to all personnel within organization and external interested parties including members of the public.

As the highest executive leadership of the organization, I am committed in maintaining, reviewing and improving the strengths of Special Olympics Bharat. I shall also review this quality policy for its continuing suitability.

Dr. Cmdr. Kartikay Saini
Chairman

Special Olympics Bharat, New Delhi
